Calliya is a lightweight, browser-based communication platform that unifies voice calls, SMS, video calls, and multi-company management into one intuitive interface. Built for small businesses and growing teams, Calliya eliminates the need to manage multiple communication tools while providing enterprise-grade features without the complexity or cost.

💰 Save 70% on Communication Costs

Why Business Owners Choose Calliya

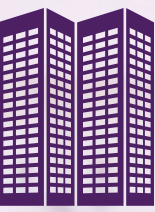

Browser-Based & Mobile-Ready
No downloads required. Access your complete communication hub from any device, anywhere.

Revolutionary Flat-Rate Pricing
One price for unlimited users. Scale from 5 to 500 employees without increasing your communication budget.

48-Hour White-Glove Setup
Our team handles everything—phone numbers, routing, training. You focus on your business

Multi-Company Management
Perfect for agencies, franchises, or businesses with multiple brands. Switch between companies seamlessly.

Smart Call Analytics
Track missed calls, monitor team performance, and never lose another potential customer.

Perfect For Every Business

Browser-Based & Mobile-Ready
Stop missing patient calls. Manage appointments across multiple locations with unified call logs.

Real Estate Teams
Keep leads organized. Track every client interaction with centralized call history and SMS.

Service Businesses
From HVAC to repair services—manage field teams and customer communications in one place.

Growing Startups
Scale your communication as you grow. Add 100 team members without adding a dollar to your bill.
